# Team list

This screen allows team lists to be displayed for the purposes of printing, and taking to the match.

Lists can be generated for any round, and grade, for the selected season. Columns can be hidden or displayed as required by checking the appropriate checkboxes.

When printed, lists do not include headers or footers, and if multiple lists are generated at the same time, page breaks are inserted after each list (Internet Explorer only).

ⓘ Please note this functionality for the two typical types of lists below are <u>not yet available</u> in the system but will be added to a future release:

- **Captain's List** - list of each team with contact details, and subscription payment details. There is also a checkbox to fill in payments received on the day.
- **Umpire/Referee's List** (Match Official) - list of each team with DOB, suitable for handing to an umpire, or opposition captain. This also includes provision for a signature.
