Create Draw with Fixture Slots

This Document is a brief guide outlining the process of creating draws using Fixture Slots.

Before beginning this process you should make sure the following tasks have been completed.

1. **Add fixture slots** to a grade - All venues and start times should exist in the database.
2. **Allocate teams to grades** - All of your grading should be finished prior to fixture creation.
3. Fixture Template Uploads - If you have a fixture template, **contact support** to have it uploaded.
4. **Match Type** Creation - All of your required match types should be created with the appropriate duration set.

Once these tasks are done, you are ready to create the Draw using the **Create Draw** screen, taking care to:

1. Select the **Fixture Templates** in **Step 1 - Start Creating Draw.**
2. Select the **Fixture Slots** under **Venue Allocation Method in Step 1 - Start Creating Draw.**
3. Complete Draw Creation (Steps 1 - 7 - Review/Submit is complete).
