

Duckworth-Lewis (ECB Mobile)

[Play-Cricket Scorer FAQ](#)

Use the DL Calculator to reset target for the team batting second in an interrupted one-day match as per the Duckworth-Lewis method.

The DL calculator screen comes up after selecting to use Duckworth-Lewis on the [Match Status](#) screen.

To use the DL calculator, make sure that the 'Overs per Innings' value has been set in [Match Settings](#): the value can't be set to 'No limit', or set to greater than 50 overs.

The screenshot shows the 'DL Calculator' app interface. At the top, there's a blue header bar with 'Cancel', 'DL Calculator', and 'Done' buttons. Below this is a tab bar with '1st Innings' and '2nd Innings'. The '1st Innings' tab is selected and highlighted with a blue underline. Below the tabs is a table with two columns: 'OVERS' and 'RUNS'. The table shows a total of 20 overs and 160 runs for the 'East Coast Bays' team. At the bottom, there's a 'Suspension Periods' section with a right arrow icon. Numbered callouts are placed around the interface: (1) points to the 'Done' button, (2) points to the '2nd Innings' tab, (3) points to the 'TOTAL' row in the table, and (4) points to the 'Suspension Periods' section.

	OVERS	RUNS
ECB East Coast Bays		
TOTAL	20	160

Suspension Periods >

Highlighted Features:

- (1) To return to Match Status, tap on Cancel. To save changes made, tap on Done.
- (2) To switch to the 2nd innings, swipe to the left or tap on the '2nd Innings' tab. Note: the 2nd innings tab will only be available if scoring for the 2nd innings has commenced.
- (3) See match summary for the 1st innings showing overs completed and runs scored.
- (4) To add details for match interruption(s), tap on 'Suspension Periods'. Ensure you add the interruption(s) under the right innings.

The screenshot shows a mobile application interface for managing suspension periods. At the top, there is a status bar with signal strength, time (12:44), and battery level. Below this is a blue header bar with three buttons: 'Cancel', 'Suspension Periods', and 'Done'. Callout 1 points to the 'Done' button. The main content area is titled 'Suspension 1' and includes a red 'X' icon in the top right corner, with callout 2 pointing to it. Below the title, there are four input fields for recording suspension details: 'AFTER OVER' (value 2), 'RUNS' (value 41), 'WICKETS LOST' (value 1), and 'OVERS REMAINING AFTER SUSPENSION' (value 8). Callout 3 points to the input fields. At the bottom of the screen, there is a large blue button labeled 'NEW SUSPENSION PERIOD', with callout 4 pointing to it.

Highlighted Features:

(1) To return to the DL calculator screen, tap on Cancel. To save changes made, tap on Done.

(2) To remove a suspension, tap on (X)

(3) See options for entry of an interruption. Enter the number of completed overs, runs scored and wickets lost at the time of suspension, followed by overs remaining in the innings after the suspension.

(4) To add details for additional match interruption(s), tap on 'New Suspension Period'.
