

Non Playing Dates

The non-playing date groupings page allows you to group multiple date ranges under a single heading. (eg: School Holidays) to allow exclusion of tournaments/competitions in that period .

The non playing dates will subsequently appear under a dropdown list for including into the [Create Draw](#) process.

Add new date or date range

From

09/10/2018

To

14/10/2018

Add selected date or range

Add public holidays for a specific year

2018

Include dates

Step 3 - Date ranges available under one name for choosing in create draw

Do not schedule matches between the following date and time ranges

Available Non Playing Date Ranges	<div> <div>▼</div> <div>Check All</div> <div> <input type="checkbox"/> Nationals & Centre of Excellence </div> <div> <input type="checkbox"/> school holidays </div> </div>
Text to display at top and bottom of draw	

Any number of these groupings can be flagged for consideration when a draw is created.

Where a match day would fall on any of the dates within the chosen groupings, it is adjusted to the next interval. The new match date is then re-checked against any selected groupings.

Any non-playing date listings set up here are available for selection at future draw creations.

Deleting the grouping also deletes any dates assigned within it.

The name and description values can't be edited. Delete and re-create the grouping to achieve this.
