

Pairs Cricket (MyCricket LiveScore Tablet)

[MyCricket LiveScore FAQ](#)

The screenshot shows the MyCricket LiveScore app interface on an iPad. The top status bar indicates the time is 11:21 am and the battery is at 100%. The app's header bar is blue with a hamburger menu icon on the left, the word 'Matches' in the center, and 'Grades' on the right. Below the header, there are two tabs: 'MyCricket' (selected) and 'Custom'. The 'MyCricket' tab displays a list of matches. The first match is 'Completed (1)' and features 'Yarraville Club' (1/94) and 'Doutta Stars' (1/99). The match is in the 'Senior Division' and took place on '18th July 2017, 12:00 am'. A 'VIEW / SHARE' link is provided. The second match is 'In Progress (2)' and features 'Greenvale Kangaroos' (1/7) and 'Airport West St Christophers' (0/0). This match is also in the 'Senior Division' and took place on '19th July 2017, 12:00 am'. A 'CONTINUE SCORING' link is provided. The 'Pairs' section on the right shows settings for the current match. It includes a 'Back' button and a 'Pairs' title. The 'Batting' section has six numbered callouts: (1) 'Overs per pair' (4), (2) 'Starting runs per innings' (200), (3) 'Runs lost per wicket' (5), (4) 'Penalised wickets per player' (All), (5) 'Change strike after a wicket' (toggle switch), and (6) 'Runs gained per wicket' (0). The 'Bowling / Fielding' section is currently empty, showing a large blue area with a yellow question mark icon.

Highlighted Features:

- (1) To set the number of overs per batting pair, tap on (–) to reduce and (+) to increase the value. The batting team is divided into pairs and each pair bats for this duration, regardless of whether they are dismissed or not.
- (2) To set starting score per innings, tap and enter value. Each team commences its innings with this total, to which runs are added as scored.
- (3) To set number of runs subtracted from batting total at fall of wicket, tap on (–) to reduce and (+) to increase value.
- (4) To set the number of times per batter that the batting team gets penalized for a wicket, tap on (–) to reduce and (+) to increase the value. If set to 'All', the batting team will get penalized every time a batter is dismissed as per (3).
- (5) To select whether or not to change ends at the fall of each wicket, use the toggle switch for 'change strike after a wicket'.
- (6) To set number of runs added to the total of the bowling team at fall of a wicket, tap on (–) to reduce and (+) to increase the value.
